- Developed and **maintained** over 5+ web applications using **ReactJS**
- **Improved** application performance and **stability** through attractive **front-end designs**
- Worked closely with senior software engineers to **understand** development **best practices**
- Participated in **team** meetings and agile sprint **retrospectives**

Skills

JavaScript | React JS | NodeJS | MongoDB | Java | Python | Git/GitHub | Postman |

Projects

Campus Sync: Students Wellbeing | [Github](#)   **Dec'23**

A dynamic React Native mobile app fostering student-teacher interaction. Empowering students to effortlessly navigate attendance, view results, apply for leave, and receive announcements. Equipped faculty with result management, attendance tracking, leave approvals, and announcements.
- Implemented the attendance tracking **logic** and leave approval system using **React Native Components** to calculate and display the total attendance percentage at the end, out of total classes taken by lecturers.
- Incorporated **event handling** in JavaScript to dynamically update the community chat and user interface.
- Ensured **cross-platform** compatibility and responsive design to provide a consistent experience across different devices and **screen sizes**.

Skill Harbor: Interview Experience and Placement Activities | [Github](#)   **Sep'23**

*Transformed college placement with a user-friendly webapp. Students document interviews, access job info, and explore resources effortlessly. Faculty manages job listings seamlessly. Built with **React.js, Node.js,** and **MongoDB**, underscoring my full-stack proficiency.*
- Built this project using ReactJS, leveraging its **component-based architecture** for modular and reusable code.
- Implemented state management using React's **useState** hook to **dynamically** update the expense job list and resouces.
- Utilized React's **map** function to dynamically **render** the experiences.

Extracurricular Achievements

- **WINNER -** 1st Place in **Web Development** at "Tech Manthan", an in-house fest conducted by K.L.E.S BCA PC Jabiin Science College, Hubli
- **WINNER** - in **Hackathon** at "Ganaka Vidya'22", an inter-college hackathon by Jain College of Engineering, Belgaum
- **RUNNERS UP** - in **Coding** at "Fiesta'2023", an inter college IT Fest organised by J T College, Gadag
